Founded in 2014, CUP UP has grown to be one of the leading manufacturers of hygiene paper products in Croatia, delivering high-quality paper products throughout Europe.

We are a forward-looking ISO 9001 company dedicated to continually investing in production processes, technology and green solutions to deliver superior paper products efficiently and competitively to our customers. While being sustainable, resource and energy-efficient.

NORD™

PAPER SOLUTIONS

CUP UP manufactures NORD Paper Solutions. A wide range of high-quality, hygienic paper products, all made from 100% sustainably sourced or recycled cellulose.

We use the best environmental practices and the latest industry standards to produce high-quality paper hand towels, toilet paper, kitchen rolls and industrial rolls for the Away-From-Home and consumer markets.

Products produced to your requirements and brand

Even though the NORD paper range is extensive, flexible production capabilities and our commitment to our customers means we can help develop bespoke product lines, sheet and roll sizes, pack configurations and own-branded products.

Contact us with your requirements.

We care about sustainability.

We are committed to sustainability and take measures to reduce our environmental impact through our manufacturing processes and working practices.

In-house Energy

In the manufacturing facility, half of the energy used is generated internally through the use of renewable energy. We aim to further decrease our carbon footprint and minimise our impact on the environment.

Waste Recycling

We adopt a circular approach to waste management, sending waste materials to a paper mill to be reprocessed into raw materials, which we repurchase to create more paper products. This process reduces waste and conserves natural resources.

Packaging

Our packaging cartons and foil wraps are 100% recyclable and partly made from recycled materials.

• **Ecolabel** is awarded to products meeting high environmental standards throughout their life cycle from the raw material to production, distribution and disposal.

• **FSC®** - Products carrying the Forest Stewardship Council® symbol are independently certified to ensure they are made from or contain wood from FSC®, certified forests. Ask for our FSC certified products. (FSC - C178670)

• **ISO 14001** - CUP UP has implemented an environmental management system at our manufacturing and distribution site. We are committed to continually improving our environmental performance and a sustainable future for all aspects of our business.

• **Friend of the Environment**
A symbol of CUP UP's commitment to continuous development of quality products with less impact on the environment.

mini jumbo
toilet paper rolls

100% Cellulose | paper made from sustainable sources
